

## Collection Overview

### Interior Installations

Raw steel column with primed steel treads and platform, available with vinyl or aluminum handrails and suitable for corner or loft installations. Optional components include Red Oak wood tread covers, Anti-slip traction tread covers and additional platform rail. Adjustable rise from 8 ½" to 9 ½" between treads.

### Exterior Installations

Galvanized steel column, treads and platform, available with vinyl or aluminum handrails and suitable for exterior and interior corner or loft installations. Optional components include additional platform rail. Adjustable rise from 8 ½" to 9 ½" between treads.

Mylen Stairs stands behind our product with a five-year Warranty on everything we sell and a lifetime warranty on metal fabrication (see below for details). You can trust us if you have a problem, we will fix it for you, that's the bottom line. If you have any questions please e-mail us at [info@mylenstairs.com](mailto:info@mylenstairs.com) or call us at (855) 821-1689. More detailed warranty information is available on our Warranty Disclaimer document or on our [www.mylenstairs.com](http://www.mylenstairs.com) web site.

## Color and Finish Options

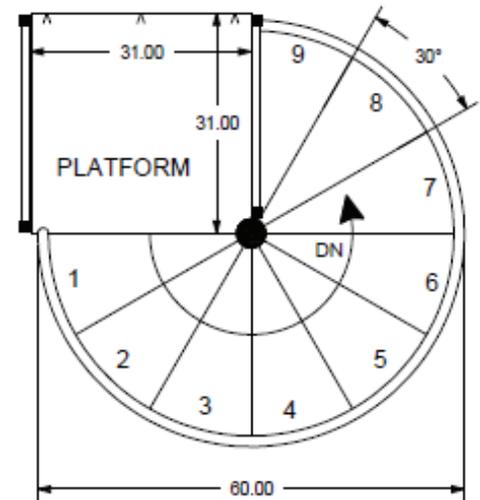

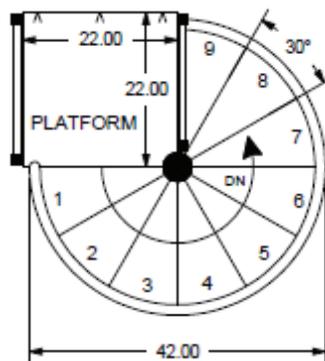

|                                       | Interior                    | Exterior                    |
|---------------------------------------|-----------------------------|-----------------------------|
| <b>Column</b>                         | Raw Steel                   | Galvanized Steel            |
| <b>Treads and Balusters</b>           | Primed (Flat Black)         | Galvanized Steel            |
| <b>Tread Type</b>                     | Smooth Steel                | Diamond Plate               |
| <b>Handrail</b>                       | Black Vinyl or Raw Aluminum | Black Vinyl or Raw Aluminum |
| <b>Optional Wood Tread Covers</b>     | Red Oak                     | N/A                         |
| <b>Optional Traction Tread Covers</b> | Black                       | N/A                         |

## Diameter Measurements

The recommended opening should be at least 2" wider than the staircase's diameter.

Please refer to the following chart for more diameter measurement information.

| Stair Diameter | Floor Opening |
|----------------|---------------|
| 42" (3'6")     | 44"           |
| 60" (5'0")     | 62"           |

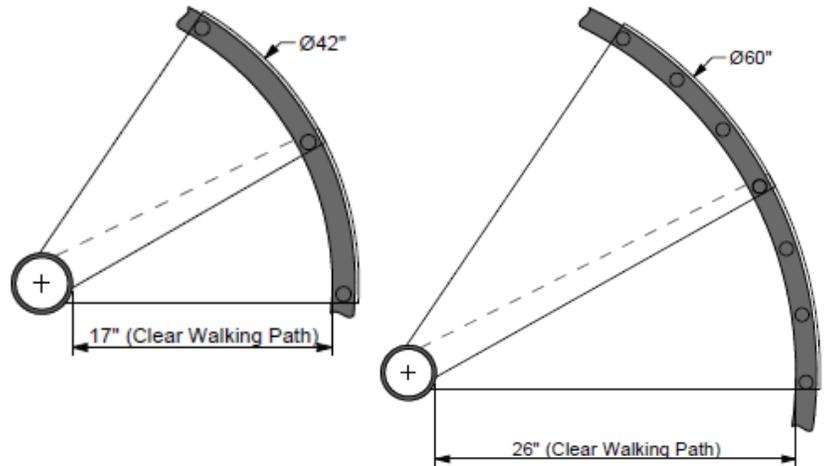

Please call (888) 243-3339 or visit [stairwayshop.com/page/contact/](http://stairwayshop.com/page/contact/) for additional information, assistance, or questions.

## Walking Path Measurements

The clear walking path is the measurement from the inside of the column to the inside of the handrail and will vary by model and diameter choice.

Please refer to the following chart for more walking path measurement information.

| Stair Diameter | Clear Walking Path |
|----------------|--------------------|
| 42" (3'6")     | 17"                |
| 60" (5'0")     | 26"                |

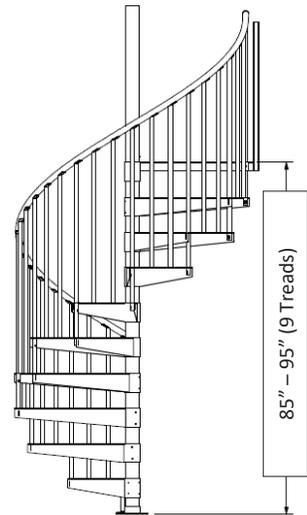

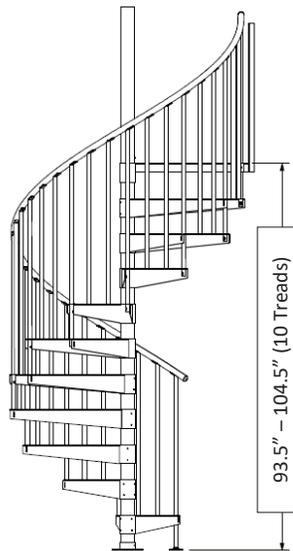

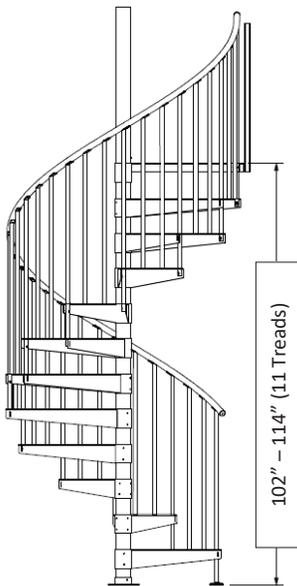

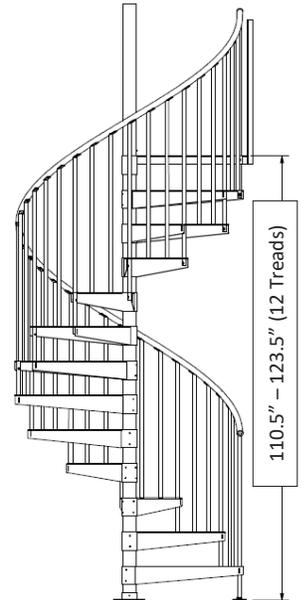

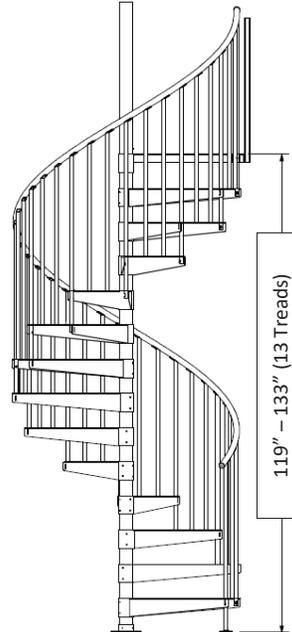

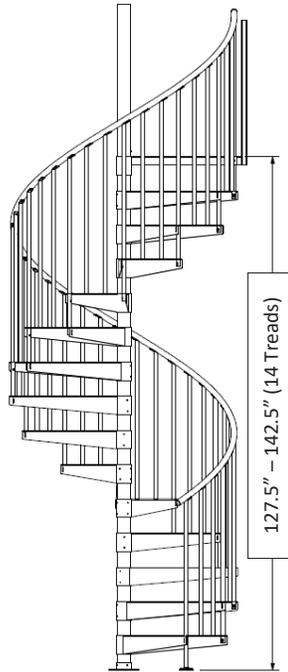

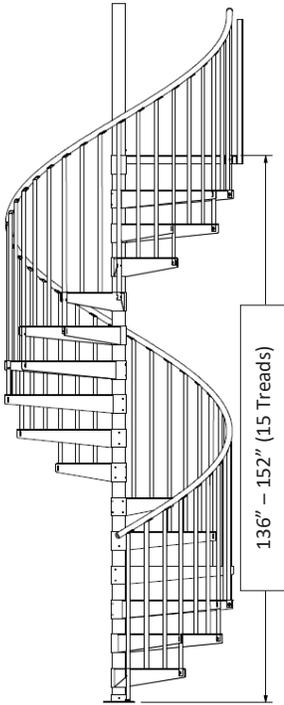

## Height Measurements

The Reroute Collection is offered in various tread counts to cover a multitude of height application. Each tread is adjustable from 8 ½" to 9 ½" between treads. Floor to Floor height is measured from the lower floor to the top of the floor above. Please refer to the chart below to find the proper tread count for your installation application.

| Tread Count | Floor to Floor Measurements |            |
|-------------|-----------------------------|------------|
|             | Height Min                  | Height Max |
| 9           | 85"                         | 95"        |
| 10          | 93.5"                       | 104.5"     |
| 11          | 102"                        | 114"       |
| 12          | 110.5"                      | 123.5"     |
| 13          | 119"                        | 133"       |
| 14          | 127.5"                      | 142.5"     |
| 15          | 136"                        | 152"       |
